# **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

### Classification (REGULATION (EC) No 1272/2008)

| Aerosols, Category 1   | H222: Extremely flammable aerosol.<br>H229: Pressurised container: May burst if heated. |
|--|---|
| Eye irritation, Category 2   | H319: Causes serious eye irritation.  |
| Specific target organ toxicity - single ex-<br>posure, Category 3, Central nervous<br>system | H336: May cause drowsiness or dizziness.  |

#### 2.2 Label elements

#### Labelling (REGULATION (EC) No 1272/2008)

| Version: 2.7                      |   | Revision Date: 12.03.2024  | Print Date: 13.03.2024                              |
|-----------------------------------|---|--|---|
| Hazard pictograms                 | : |  |   |
| Signal word                       | : | Danger   |   |
| Hazard statements                 | : | <ul> <li>H222 Extremely flammable aerosol.</li> <li>H229 Pressurised container: May but</li> <li>H319 Causes serious eye irritation.</li> <li>H336 May cause drowsiness or dizz</li> </ul>                             | urst if heated.                                     |
| Supplemental Hazard<br>Statements | : | EUH066 Repeated exp dryness or cracking.   | osure may cause skin                                |
| Precautionary statements          | : | Prevention:P210Keep away from heat, hot surfflames and other ignition sources. NoP211Do not spray on an open flameP251Do not pierce or burn, even afP261Avoid breathing mist.P280Wear eye protection/ face protection/ | smoking.<br>e or other ignition source.<br>ter use. |
|                                   |   | <b>Storage:</b><br>P410 + P412 Protect from sunlight.<br>peratures exceeding 50 °C/ 122 °F.  | Do not expose to tem-                               |

### Hazardous components which must be listed on the label:

Acetone n-Butyl acetate

### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

# **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

Chemical nature : Mixture

### Components

| Chemical name                     | CAS-No.             | Classification       | Concentration |

### **SECTION 4: First aid measures**

# 4.1 Description of first aid measures

| General advice          | : | Call a physician if symptoms occur.   |
|-------------------------|---|---|
| If inhaled              | : | Provide fresh air.<br>Keep patient warm and at rest.<br>If symptoms persist, call a physician.  |
| In case of skin contact | : | Take off immediately all contaminated clothing.<br>Wash skin thoroughly with soap and water or use recognized<br>skin cleanser.<br>Do NOT use solvents or thinners. |
| In case of eye contact  | : | Rinse immediately with plenty of water, also under the eyelids,<br>for at least 15 minutes.<br>If eye irritation persists, consult a specialist.                    |
| If swallowed            | : | Call a physician immediately.   |

| Version: 2.7  |      | Revision Date: 12.03.2024   | Print Date: 13.03.2024            |
|---|------|---|-----------------------------------|
|   |      | Keep at rest.<br>Do NOT induce vomiting.  |                                   |
| 4.2 Most important symptoms a                             | nd e | effects, both acute and delayed   |                                   |
| Risks   | :    | Causes serious eye irritation.<br>May cause drowsiness or dizzine<br>Repeated exposure may cause s    |                                   |
| 4.3 Indication of any immediate                           | me   | dical attention and special treat   | ment needed                       |
| SECTION 5: Firefighting mea                               | sur  | es  |                                   |
| 5.1 Extinguishing media                                   |      |   |                                   |
| Suitable extinguishing media                              | :    | Use water spray, alcohol-resistat<br>bon dioxide.   | nt foam, dry chemical or car-     |
| Unsuitable extinguishing media                            | :    | High volume water jet   |                                   |
| 5.2 Special hazards arising from the substance or mixture |      |   |                                   |
| Specific hazards during fire-<br>fighting                 | :    | Combustion may cause:<br>Carbon dioxide (CO2)<br>Carbon monoxide                                      |                                   |
| 5.3 Advice for firefighters                               |      |   |                                   |
| Special protective equipment for firefighters             | :    | Wear self-contained breathing a essary.   | oparatus for firefighting if nec- |
| Further information                                       | :    | Use water spray to cool unopene<br>Fire residues and contaminated<br>be disposed of in accordance wit | fire extinguishing water must     |

## **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, protect | ive equipment and emergency procedures  |
|-----------------------------------|---|
| Personal precautions              | <ul> <li>Provide sufficient air exchange and/or exhaust in work rooms.<br/>Remove all sources of ignition.<br/>Do not breathe vapour.<br/>Refer to protective measures listed in sections 7 and 8.</li> </ul> |
| 6.2 Environmental precautions     |   |
| Environmental precautions         | : Do not flush into surface water or sanitary sewer system.<br>Inform the relevant authorities if it enters sewers, aquatic envi-<br>ronment or soil.   |
| 6.3 Methods and material for con  | tainment and cleaning up  |
| Methods for cleaning up           | : Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite)  |

and transfer to a container for disposal according to local /

| Version: 2.7 | Revision Date: 12.03.2024 | Print Date: 13.03.2024 |
|--------------|---------------------------|------------------------|
|              |                           |                        |

national regulations (see section 13). Keep in suitable, closed containers for disposal.

### 6.4 Reference to other sections

Refer to protective measures listed in sections 7 and 8., For disposal considerations see section 13.

### **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

| Advice on safe handling                         | <ul> <li>Do not breathe vapours or spray mist.<br/>When using do not eat, drink or smoke.<br/>For personal protection see section 8.<br/>Take precautionary measures against static discharges.<br/>Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C. Do not pierce or burn, even after use.<br/>Do not spray on a naked flame or any incandescent material.<br/>Keep away from sources of ignition - No smoking. Keep away from children.</li> </ul> |
|---|---|
| Advice on protection against fire and explosion | : Vapours are heavier than air and may spread along floors.   |

#### 7.2 Conditions for safe storage, including any incompatibilities

| Requirements for storage areas and containers  | : | Electrical installations / working materials must comply with the technological safety standards. Follow the water regulations.             |
|--|---|---|
| Further information on stor-<br>age conditions | : | Keep only in the original container in a cool, well-ventilated place. Keep away from heat. Keep away from sources of ignition - No smoking. |
| Advice on common storage                       | : | Incompatible with oxidizing agents.   |
| 3 Specific end use(s)                          |   |   |

# 7.3 Specific end use(s)

| Specific use(s) | : Paint-aerosol |
|-----------------|-----------------|
| 1 ()            |                 |

### **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

### **Occupational Exposure Limits**

| Components     | CAS-No.  | Value type (Form of exposure) | Control parameters       | Basis   |
|----------------|----------|-------------------------------|--------------------------|---------|
| Acetone        | 67-64-1  | TWA                           | 500 ppm<br>1,210 mg/m3   | GB EH40 |

| The transport classification(s)               | pro | ovided herein are for informational purpo   | ses only, and solely  |

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

#### 14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

### **SECTION 15: Regulatory information**

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

| UK REACH List of substances subject to authorisation (Annex XIV)                    | : | Not applicable |
|---|---|----------------|
| UK REACH Candidate list of substances of very high concern (SVHC) for Authorisation | : | Not applicable |
| The Persistent Organic Pollutants Regulations (retained                             | : | Not applicable |

Version: 2.7 Revision Date: 12.03.2024 Print Date: 13.03.2024

Regulation (EU) 2019/1021 as amended for Great Britain)

#### 15.2 Chemical safety assessment

A Chemical Safety Assessment is not required for this substance.

### **SECTION 16: Other information**

#### Full text of H-Statements

| H201   | : | Explosive; mass explosion hazard.                     |
|--------|---|---|
| H220   | : | Extremely flammable gas.                              |
| H225   | : | Highly flammable liquid and vapour.                   |
| H226   | : | Flammable liquid and vapour.                          |
| H280   | : | Contains gas under pressure; may explode if heated.   |
| H312   | : | Harmful in contact with skin.                         |
| H315   | : | Causes skin irritation.                               |
| H319   | : | Causes serious eye irritation.                        |
| H332   | : | Harmful if inhaled.                                   |
| H336   | : | May cause drowsiness or dizziness.                    |
| H412   | : | Harmful to aquatic life with long lasting effects.    |
| EUH066 | : | Repeated exposure may cause skin dryness or cracking. |
