

Technical Information

hebro[®]sol TL

Water-emulsifiable special product for cleaning

Characteristic structure

Halogens	Aromatic compounds	Solvents	Alkaline solutions	Surfactants
-	X	X	-	-

hebro[®]sol TL is a modern water-miscible cleaner with specially incorporated cold cleanser components for all degreasing and cleaning work.

Properties

- Mixable with water in any ratio.
- Quickly and safely dissolves oil and grease stains on metal surfaces.
- Compatibility must be tested beforehand for use on plastics.

Technical specifications (typical values)

Colour	Smell	Flashpoint	Density at 20°C (DIN 51757)	Water solubility
Yellow	Aromatic	67°C	1.01 g/cm ³	1,000 g/litre

Dosing

- Dosing: 10% concentrate, depending on the degree of soiling, cold.
- For machines or metal surfaces soiled with oil and grease, mix hebro[®]sol TL with water up to 1:10 and clean with a sponge, cloth or brush. Then remove the detached dirt from the surface with water or cleaning wool.
- Alternatively, the application can also be performed by immersion, in this case mix with water up to a maximum of 1:5.

Information

The maximum shelf life in the sealed original container is 12 months from the date of production.
Store the product frost-free at 5 – 40°C.
Disposal of completely empty containers is possible via our Interseroh system.
