## hebro<sup>®</sup>derm spezial

Skin-friendly, creamy hand cleaner for paints and varnishes with walnut shell rubbing agent

**hebro<sup>®</sup>derm spezial** not only cleans effortlessly, its special ingredients also prevent cracked and brittle hands. Thus, the natural protective function of the skin is preserved and thus contributes to active employee protection.

### hebro<sup>®</sup>derm spezial

- is a highly effective, pasty cleaning product with moisturizing properties.
- strong hand cleaning product with environmentally friendly and user-friendly walnut shell friction agents.
- contains a high proportion of care substances, which keeps the skin supple and does not degrease.
- is integrated into the skin protection plan in accordance with the BGV and workplace ordinance [§ 35.4]
- is based on skin-friendly and environmentally friendly solvents.
- removes even persistent, dried-on paint residues, 1K-, 2K-paints, high-solid, baking enamels, adhesives, sealing materials, resins and similar contaminations
- is free of preservatives and scents, contains no silicon and is dermatologically tested

### Application

Put **hebro<sup>®</sup>derm spezial** in the dirty, dry hands and rub until the dirt dissolves. Then wash with a little water and then rinse well.

### Information
