

Technical Information

hebro[®]extoll

Special product for cleaning non-porous surfaces

Characteristic structure

Halogens	Aromatic compounds	Solvents	Alkaline solutions	Surfactants
-	-	X	-	-

hebro[®]extoll quickly and effortlessly removes deliberate smudges and stubborn stains such as ink, pens, grease pencil, felt-tip pen, glue residue, lipstick, grease, printing ink and other difficult-to-remove soiling.

Properties

- Contains no halogenated hydrocarbons, surfactants, acid or alkaline solutions.
- Ready to use and easily removes heavy soiling, e.g. from plastic sheets, tiles, ceramics, metal signs, glass, painted surfaces, high-gloss painted surfaces, facades, etc. (not suitable for art glass).

Technical specifications (typical values)

Colour	Smell	Flashpoint	Density at 20°C (DIN 51757)	Water solubility
Colourless	characteristic	40°C	0.84 g/cm ³	Not soluble

Dosing

- When using hebro[®]extoll in the aerosol can, shake it before use and apply the product to the surfaces to be treated. Upside down spraying is possible.
- Loose items: Wet the surfaces to be cleaned with hebro[®]extoll, leave on for a little while then wipe off.

Information

The maximum shelf life in the sealed original container is 12 months from the date of production.
Store the product frost-free at 5-40°C.
Disposal of completely empty containers is possible via our Interseroh system.
