

Technical Information

hebro[®]derm Set 2000

Complete solution for skin protection, skin cleaning and skin care, dermatologically tested and pH-neutral

hebro[®]derm Set 2000

- can be dosed via dispenser pumps that ensure economical use and prevent unnecessary overdosing.
- contains all components of a skin protection system and is suitable for broad application. Thus it improves the occupational safety.

① **hebro[®]derma care** Skin protection with a special combination of active ingredients based on polymers, anti-inflammatory

- offers a long-lasting, non-greasy, silicone-free broad-spectrum protection without preservatives.
- is easy to spread and absorbed quickly.
- prevents the skin from drying out and pores do not clog.
- reduces the strain on the skin, which makes the subsequent cleaning process of even the most extreme soiling much easier.
- protects against moisture, cold, heat, humidity, acids, alkalis, various solvents, oils, greases, lubricants, lacquers, paints, inks, adhesives, bitumen, tar, lime, cement, soot, PU foams and much more.
- Apply **hebro[®]derma care** sparingly onto clean and dry skin and rub in well. Renew skin protection before extreme stress and after washing hands with soap or hand wash paste.

② **hebro[®]derma sil** Pasty hand cleaner without plastic friction agents, free from alkali

- ensures a skin-friendly removal of dirt by its special surfactant system.
- contains high-quality, natural fatty substances, which are essential for a good re-fattening of the skin.
- contains biodegradable surfactants according to the OECD screening test.
- contains finely ground corncob flour as a grating agent. The threshed corncob is a waste product, so that there is no competition with food.
- removes effortlessly oils, greases, tar, bitumen, paints, printing inks and much more.
- Apply **hebro[®]derma sil** sparingly to dry hands and rub until the dirt dissolves. Then add a little water and wash thoroughly. Afterwards, rinse well with water and dry as usual.

③ **hebro[®]derma lind** Rich skin care with vitamin E, A, D-panthenol and α - Bisabolol

- is a lightly oily skin care lotion which is easy to apply and absorbed.
- cares for brittle and stressed hands and can be applied to all parts of the body as required
- nourishes and protects stressed skin with almond oil, peanut oil and skin-related oils.
- Apply **hebro[®]derma lind** to clean, dry skin and rub in lightly. Suitable for the whole body.
