

Technical Information

hebro[®]sol 3

Fast-acting degreaser for electronic and electrical components

Characteristic structure

Halogens	Aromatics	Solvent	Lye	Tenside
-	-	X	-	-

hebro[®]sol 3 is used wherever residue-free cleaning must be ensured.

The cleaning of electronic and electrical components may only be carried out with components that are de-energized. After application of the product, the complete flash-off of the product is necessary. The components should be blown out or blown off with air.

Properties

- Contains no halogenated hydrocarbons, surfactants, acid or alkalis.
- Residue-free cleaning.
- Free of CFCs and CHCs.

Technische Daten (typische Werte)

Appearance	Odor	Flashpoint	Density at 20°C (DIN 51757)	Water solubility
colorless	characteristic	-18°C	0,71 g/cm ³	insoluble

Dosage

Can be used by wiping, spray or immersion. Remove the detached dirt with a clean cloth.

Information

The maximum shelf-life in the originally sealed container is 12 months from the date of production.
The product should be stored frost-free between 5-40°C.
Empty containers can be disposed via our Interseroh System.

The Information given in this data sheet is based in the properties and possible uses known to us. In general, no legal liability can be derived from this data. We reserve the right to make changes to the product of these are necessary due to legislation or the lack of raw materials.
